Single, Pair, Tandem and Team.

## SL Harness

A versatile choice for a wide variety of small pony types and breeds.

### Why choose SL?

Ponies don't come in standard sizes! SL is designed to offer multiple choices of mix and match parts to achieve the correct fit. Whatever your aspirations, SL harness can grow with your ambitions to accommodate single, pairs, tandems and teams.

SL is a lightweight combination of elegance, strength and super easy maintenance. Suitable for all driving activities, including tough marathon conditions..

### Average size per standard single set

Small ponies vary in stature depending on type and breed. SL sets can be supplied in standard sizes, or parts can be interchanged to achieve the correct fit. As a general guide, the standard sizes are based on:

- Mini: Small miniature ponies and taller fine miniature horses up to approx 38" (97cm).
- Shetland: Shetland type ponies up to approx. 11.2hh (117cm) depending on breed and build.
- Small Pony: Small native breeds or types e.g. Dartmoor, Welsh Mountain and small Sec B Welsh.

### Sizes:

Mini, Shetland and Small Pony (sizes can be mixed).
